

mtn Novelties

New products from Montana Colors.

Hot news for this hot summer!

We refreshed our worldwide famous Pocket, a classical for tags maniacs.

Pocket grew up from its 100ml to a 150ml. The original color chart increased its 4 colors, black, white, silver and red, with two hits by Montana, light yellow and electric blue.

2G & 94 technology applied to the 150ml size improved the original formula, guaranteeing a faster dry and an excellent coverage. But it's not just about changes, Pocket still keeps its best characteristics, the valve system and its special cap, which made this product so appreciated.

The old fashion design turns into a more aggressive look, with the new Pocket logo, special courtesy by OS GEMEOS.

Enjoy!
