The character is the most popular and easily accessible part of graffiti art. They are the figures that accompany the writer's name and attract attention to it. In this book they are brought to the fore.

*Graffiti Coloring Book 2: Characters* features themes by some of the world's foremost graffiti writers, representing five continents.

Well-built b-girls and b-boys with spray cans, boom boxes and attitude, and comic figures with cartoon features. All waiting to be rendered in glorious color.
